

## Investment Update for the 50% Balanced / 50% Growth investment option Year ended 31 March 2019

This update was first made publicly available on 28 June 2019.

### What is the purpose of this update?

This document tells you how the 50% Balanced / 50% Growth investment option has performed and what fees were charged. The document will help you to compare the investment option with other investment options. Dairy Industry Superannuation Scheme Trustee Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this investment option

The 50% Balanced / 50% Growth investment option splits your investment equally between the Balanced Fund and Growth Fund. The investment objective for this investment option is to achieve the investment objective of the relevant Fund in respect of the proportion invested in that Fund. The fund updates for each Fund, which contain more information, can be found at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz).

Total value of the investment option	\$177,654,323
Number of investors in the investment option	1,905
The date the investment option started	1 April 2003

### What are the risks of investing?

Risk indicator for the 50% Balanced / 50% Growth investment option

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the investment option's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of an investment option's future performance. The risk indicator is based on the returns data for the five years ended 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this investment option.

## How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	6.87%	5.33%
Annual return (after deductions for charges but before tax)	7.87%	6.05%
Market index annual return (reflects no deduction for charges and tax)	8.85%	8.46%

The market index return is the strategic asset allocation weighted benchmark index return for the two Funds your investment is split across, where the benchmark indices are defined in the Statement of Investment Policy and Objectives.

Further information about the market index is available on the offer register at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz).

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2019.

Important: This does not tell you how the investment option will perform in the future.

## What fees are investors charged?

Investors in the 50% Balanced / 50% Growth investment option are charged fund charges. In the year to 31 March 2019 these were:

	% of net asset value
Total fund charges	1.12% <sup>1</sup>
Which are made up of:	
Total management and administration charges	1.12% <sup>1</sup>
Including -	
Manager's basic fee	0.00%
Other management and administration charges	1.12% <sup>1</sup>
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
N/A	N/A

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching investment options). See the 'Fees' section of the 'Other Material Information' document on the offer register at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Mary had \$10,000 in the investment option at the start of the year and did not make any further contributions. At the end of the year, Mary received a return after fund charges were deducted of \$605.00 (that is 6.05% of her initial \$10,000). Mary paid \$0.00 in other charges. This gives Mary a total return after tax of \$533.00 for the year.
