

Fund Update for the Conservative Fund Year ended 31 March 2019

This update was first made publicly available on 28 June 2019.

What is the purpose of this update?

This document tells you how the Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Dairy Industry Superannuation Scheme Trustee Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Conservative Fund invests in 25% growth assets (e.g. shares) and 75% income assets (e.g. fixed interest). The investment objective for the Conservative Fund is to achieve average returns of 1% p.a. over rolling five-year periods after tax, investment-related fees and inflation (NZCPI).

Total value of the fund	\$45,583,985
Number of investors in the fund	367
The date the fund started	1 April 2003

What are the risks of investing?

Risk indicator for the Conservative Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

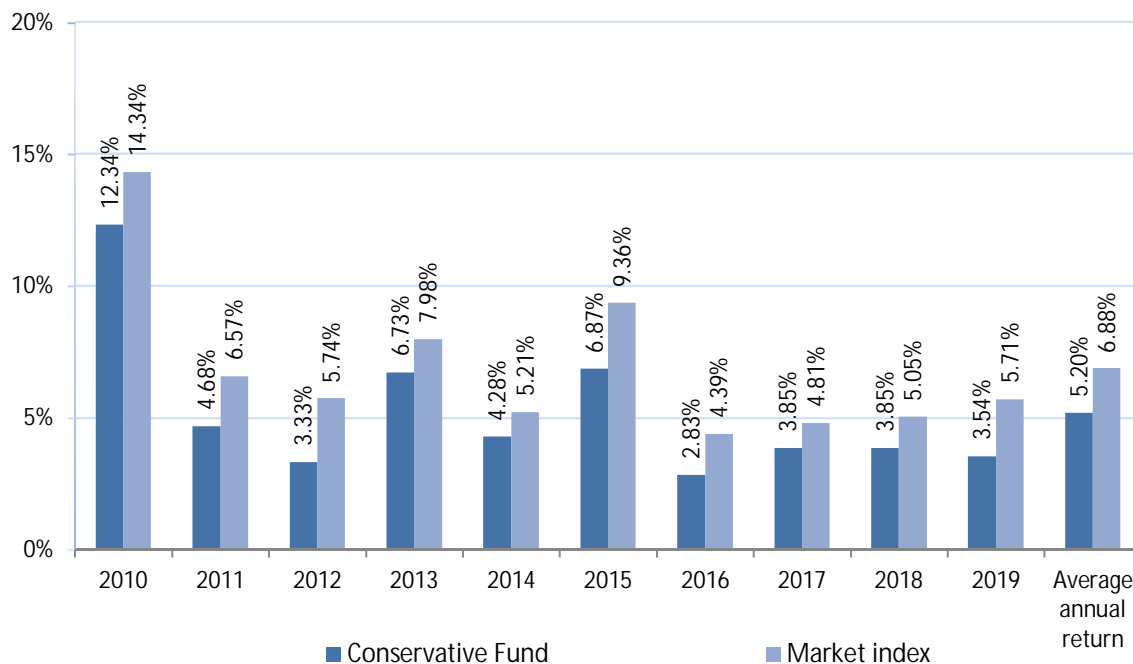

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	4.18%	3.54%
Annual return (after deductions for charges but before tax)	5.23%	4.39%
Market index annual return (reflects no deduction for charges and tax)	5.85%	5.71%

The market index return is the strategic asset allocation weighted benchmark index return for the Fund, where the benchmark indices are defined in the Statement of Investment Policy and Objectives.

Further information about the market index is available on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2019.

Important: This does not tell you how the fund will perform in the future.

What fees are investors charged?

Investors in the Conservative Fund are charged fund charges. In the year to 31 March 2019 these were:

	% of net asset value
Total fund charges	0.86% ¹
Which are made up of:	
Total management and administration charges	0.86% ¹
Including -	
Manager's basic fee	0.00%
Other management and administration charges	0.86% ¹
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
N/A	N/A

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'Fees' section of the 'Other Material Information' document on the offer register at www.disclose-register.companiesoffice.govt.nz for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

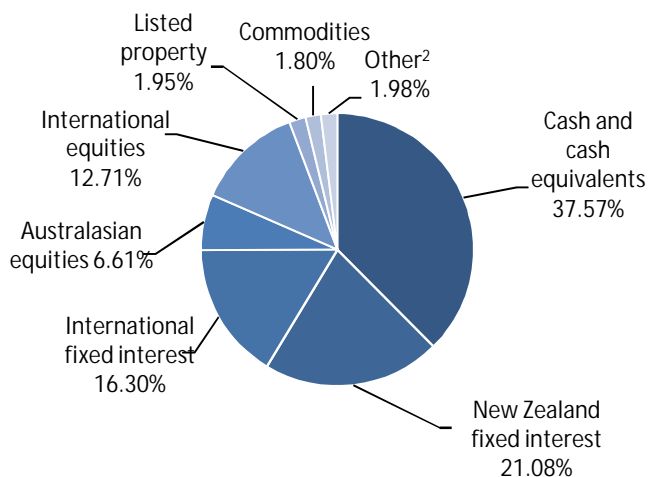

Example of how this applies to an investor

Mary had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Mary received a return after fund charges were deducted of \$439.00 (that is 4.39 % of her initial \$10,000). Mary paid \$0.00 in other charges. This gives Mary a total return after tax of \$354.00 for the year.

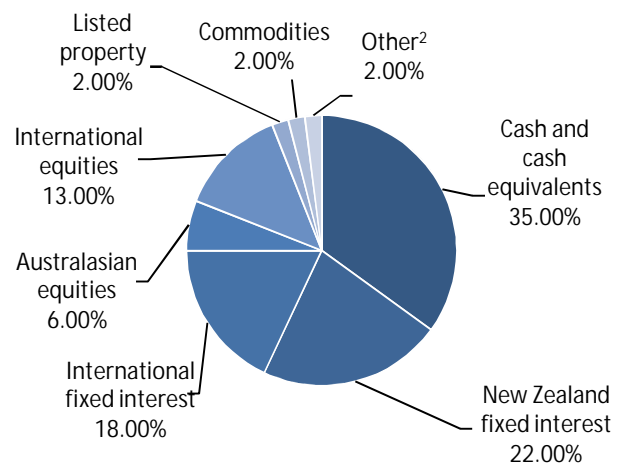

What does the fund invest in?

This shows the types of assets that the fund invests in.

Actual investment mix

Target investment mix

Top 10 investments

Asset name	% of fund net assets	Type	Country
ANZ Wholesale NZ Cash Fund	18.80	Cash and cash equivalents	NZ
AMP Capital NZ Cash Fund	18.77	Cash and cash equivalents	NZ
Russell Global Bond Fund	11.89	International fixed interest	NZ
