

Fund Update for the Balanced Fund Year ended 31 March 2017

This update was first made publicly available on 30 June 2017

What is the purpose of this update?

This document tells you how the Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Dairy Industry Superannuation Scheme Trustee Limited has prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Balanced Fund invests in 58% growth assets (e.g. shares) and 42% income assets (e.g. fixed interest). The investment objective for the Balanced Fund is to achieve average returns of 2.5% p.a. over rolling 10 year periods after tax, investment-related fees and inflation (NZ CPI).

Total value of the fund	\$210,371,891
Number of investors in the fund	2,010
The date the fund started	1 April 1996

What are the risks of investing?

Risk indicator for the Balanced Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 31 March 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return	7.85%	7.15%
(after deductions for charges and tax)		
Annual return	9.27%	8.57%
(after deductions for charges but before tax)		
Market index annual return (reflects no	9.71%	8.75%
deduction for charges and tax)		

The market index return is the strategic asset allocation weighted benchmark index return, where the benchmark indices are defined in the Statement of Investment Policy and Objectives.

Further information about the market index is available on the offer register at www.companiesoffice.govt.nz/disclose.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2017.

Important: This does not tell you how the fund will perform in the future.

What fees are investors charged?

Investors in the Balanced Fund are charged fund charges. In the year to 31 March 2017 these were:

	% of net asset value
Total fund charges	1.11%*
Which are made up of:	
Total management and administration charges	1.11%*
Including -	
Manager's basic fee	0.00%
Other management and administration charges	1.11%*
Total performance-based fees	0.00%

*Insurance premiums make up 0.55% of these charges, with the balance being made up of the other types of fees and expenses disclosed in the Scheme's PDS.

Other charges	Dollar amount per investor or description of how charge is calculated
N/A	N/A

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'Fees' section of the 'Other Material Information' document on the offer register at www.companiesoffice.govt.nz/disclose for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Mary had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Mary received a return after fund charges were deducted of \$857.00 (that is 8.57% of her initial \$10,000). Mary paid \$0.00 in other charges. This gives Mary a total return after tax of \$715.00 for the year.

Target investment mix

What does the fund invest in?

This shows the types of assets that the fund invests in.
